Circuito Exterior Mexiquense (“CONMEX”)

In 1Q13, average equivalent daily traffic reached 265,395 vehicles, representing an increase of 5.7% when compared to 250,972 in 1Q12. The average toll per vehicle equivalent in 1Q13 was Ps. 21.37, which was 7.4% higher than the Ps. 19.90 reported in 1Q12. This increase in tariff was due to the annual adjustment established in the concession title in addition to the adjustments included in the Fifth Amendment to the concession title. It is worth noting that in 2012, Holy Week took place in April, while during 2013, it took place at the end of March, resulting in 2 less work days in 1Q13.

Furthermore, 2012 was a leap year which meant there was one additional day in February. This factor affected CONMEX given that it's an urban toll road.

Viaducto Bicentenario ("VIADUCTO")

In 1Q13 traffic, measured as Average Daily Intensity ("IMD"), for this toll road reached 28,639 vehicles, representing an increase of 21.1% compared to the 23,645 vehicles reported in 1Q12. The average toll per vehicle in 1Q13 was Ps. 13.75, which compared favorably to the Ps. 10.90 reported in 1Q12. As was the case at CONMEX, this amount in tariff was due to the annual adjustment established in the concession title plus the adjustment established in the First Amendment to the concession title which was granted in July 2011.

On March 7, there was a symbolic groundbreaking for the construction of the stretch from 1o de Mayo to Toreo which has a distance of approximately 900 meters. Construction of this stretch formally began on April 15th and is expected to require an investment of Ps. 750 million with an estimated completion time of seven months.

Autopista Puebla-Perote ("GANA")

In 1Q13, average daily traffic reached 28,711 vehicle equivalents, 7.1% higher than the 26,819 registered in 1Q12, while the average toll per vehicle equivalent in 1Q13 was Ps. 40.57, an increase of 5.3% from the Ps. 38.53 reported in 1Q12.

Autopista Urbana Norte ("AUNORTE")

As of January 1, 2013, 100% of the main trunk of AUNORTE section was in operation; therefore, average daily traffic reached 36,024 vehicles, which is not comparable to the 6,790 vehicles registered in 1Q12 given the gradual openings that took place throughout 2012. Furthermore, final works for the restoration of the monument area Fuente de Petroleos was completed; this area was rehabilitated and now has five terraces with diverse plant life and a plaza with a gazebo. The rehabilitation of this important zone also included the expansion of the pedestrian overpasses to cross the Periferico, as well as the continuation of the Ferrocarril de Cuernavaca bike path.

Supervia Poetas

During 1Q13, final construction works continued at this important toll road. In early February, an additional tranche was put into operation within the Las Aguilas section, which gives access to the roadway that leads to Las Torres and Luis Cabrera. This tranche operated in reversible format towards Las Torres and Luis Cabrera up until March 16th, at which point both directions were opened towards Las Torres. In addition, in mid-March, the left lanes were put into operation from the Las Aguilas section up to the Las Torres section, which represents a total length of approximately 1,380 meters. The Company estimates that construction works will be completed during 2Q13. Average daily traffic during 1Q13 reached 15,899 vehicles.

With these openings, the only openings that remain in order to complete this project are one section in the Av. Las Torres and Av. Luis Cabrera tranche and the upper level of Luis Cabrera.

FINANCIAL RESULTS

Starting on January 1, 2013 the Company adopted NIIF 11 – Joint ventures, which replaces IAS 31 – Participation in joint ventures, which deals with the recognition of agreements between joint venture participants, which are classified as joint operations and joint ventures. NIIF 11 establishes that investments in joint ventures should be recognized using the participation method, thereby eliminating the use of the proportional consolidation method, and requires an analysis of the rights and obligations of each of the agreements, as well as a decision as to whether a Joint Venture, or an Joint Operation exists. Joint operations are agreements in which the parties (“Joint Operators”) which have joint control together share the rights over the assets and obligations of the liabilities of the respective agreements. The Joint Operator accounts for the assets, liabilities, revenues and costs proportionally according to its participation in the joint operation. A joint venture is an agreement whereby the parties, who have joint control, have rights over the net assets of the agreement. The participant in a joint venture recognizes his portion in said venture as an investment using the participation method. For this reason, the Company has determined that the following legal entities are joint ventures that have been accounted for using proportional consolidation since December 31, 2012 and that starting on January 1, 2013 were accounted for using the participation method: Controladora Via Rapida Poetas, S.A.P.I. de C.V. (or “POETAS”), Coordinadora Via Rapida Poniente, S.A.P.I. de C.V. (or “PONIENTE”), Prestadora de Servicios Via Rapida Poniente, S.A.P.I. de C.V. (“PSVRP”) and Operadora Via Rapida Poetas, S.A.P.I. de C.V. (“OVRP”). Previously reported financial information has been recalculated in line with NIIF for comparative purposes. See Investments in Associated Companies and Joint ventures section.

Toll Road Revenues

Toll Road Revenues for the quarter grew 25% from Ps. 586.0 million in 1Q12 to Ps. 735.0 million in 1Q13, stemming mainly from the 16% increase at CONMEX, 50% from VIADUCTO and 13% in Amozoc-Perote.

Construction Revenues

In accordance with Interpretation No. 12, "Service Concession Arrangements", issued by the International Financial Reporting Interpretations Committee, ("IFRIC") a concessionaire must to recognize construction revenues and costs related to infrastructure construction or improvements during their construction phase. Such construction revenues must be recognized as the construction work is completed using the percentage-of-completion method based on the proportion of costs incurred to the respective date. Among these costs are, besides those for the construction of the infrastructure, release of rights of way, financial expenses during the investment phase and others.

Construction revenues from the infrastructure of the concessionaires is determined without taking into account net margin over costs except for the margins generated by construction works realized for the concessionaires by construction company subsidiaries of OHL Mexico.

Construction revenues decreased by Ps. 546.4 million from Ps. 1,381.2 million in 1Q12 to Ps. 834.4 million in 1Q13, of which Ps. 712.1 million correspond to Autopista Urbana Norte, representing 85% of the investment over said period.

Other operating revenues

The concession contracts for CONMEX and Viaducto Bicentenario include clauses which guarantee that these concessionaires have a right to recuperate, within the contract period, the capital invested plus a guaranteed real internal rate of return net of taxes (10% in the case of CONMEX and 7% in the case of Viaducto Bicentenario). These contracts also establish that in the event that the concession expires without having fully recuperated the capital invested plus the accumulated guaranteed rate of return, the awarding government entity may extend the concession title or pay the unrecovered amount.

In the case of the concession contracts for Autopista Urbana Norte, these include clauses which guarantee that the concession should recover, within the contract term, the total amount invested in the project plus a real annual rate of return of 10% of the total amount invested after taxes.

Based on the above, at the point when the concession starts operating, the concessionaires account for net income for each period using the amount calculated by applying the aforementioned clauses of guaranteed return. As such, the concessionaires register as Other Operating Income (and as EBITDA from Other Operating Revenues) the difference between the net income calculated on the basis of the guaranteed return clauses and the net income obtained from the operations. The figure for Other Operating Revenue is also recognized in the Balance Sheet as a corresponding Intangible Asset taking into account the corresponding tax effects. Summarized financial statements for the concessionaires have been added at the end of this report which provides the accounting of Other Operating Revenues.

Other operating revenues reached Ps. 2,505.7 million during 1Q13 representing an increase of 41% over the Ps. 1,783.1 million registered in 1Q12. This increase is primarily due to different phases of the Autopista Urbana Norte beginning operations during 2012, which registered Ps. 587.3 million in other operating revenues.

COSTS AND EXPENSES

Cost and Expense Breakdown			
(thousands of pesos)	12M12	12M11	Variation %

General and Administrative Expenses	62,386	34,668	80%
Total Operating Costs and Expenses	1,201,351	1,785,171	-33%

Total operating costs and expenses decreased 33% in 1Q13 going from Ps. 1,785.2 to Ps. 1,201.4 million due primarily to the decrease in the construction cost line (as was explained in the construction revenues section) which decreased from Ps. 1,337.0 million in 1Q12 to Ps. 686.9 million in 1Q13.

The increase in the SG&A line item was due to the fact that 1Q13 includes Ps. 22.8 million corresponding to studies related to the evaluation of new projects compared to Ps. 9.8 million registered during 1Q12. Additionally, 1Q13 also includes Ps. 12.8 million in costs related to the provision of technical services, consulting and other services with its controlling shareholder.

Interest Expenses

In 1Q13 interest expenses reached Ps. 804.0 million, 23% above the Ps. 652.4 million registered in 1Q12. These increases were mainly due the start of operations during 2012 of phases of AUNORTE given that prior to initiating their operations, the financial expenses corresponding to the debt utilized for their construction were capitalized within the concession investment; once they began operating, these expenses were moved to net income for the year. Because of this, the increase in the interest expense line item for OHL Mexico and others, is explained by the debt borrowed from Compañía Española de Financiación de Desarrollo, COFIDES, S.A. ("COFIDES") in March of 2012 which generated an interest expense of Ps. 13.3 million, and Ps. 14.7 million from the debt borrowed from Latina Mexico, S.A. de C.V. (or "LATINA") with the related company Constructora de Proyectos Viales de Mexico, S.A. de C.V. (or "CPVM").

Interest Income

Interest income reached Ps. 17.3 million in 1Q13 compared to Ps. 44.2 million reported in 1Q12 as a result of lower cash levels.

INVESTMENTS IN ASSOCIATED COMPANIES AND JOINT VENTURES

This line item corresponds to the Company's 49% stake in the Toluca Airport concession and, as of January 1, 2013, to the 50% stake of de POETAS, PONIENTE, PSVRP and OVRP. The share in the revenues from associated companies and joint ventures in 1Q13 was Ps. 373.2 million compared to the Ps. 22.9 million registered in 1Q12, of which Ps. 376.5 million corresponded to operations related to the Supervia Poetas as a result of the adoption of the NIIF 11 beginning on January 1st, 2013.

As a result of the adoption of such international standard, during 1Q13 the Company is no longer registering toll road revenues of Ps. 7 million, construction revenues of Ps. 450.8 million, other operating revenues of Ps. 602.5 million, toll road EBITDA of Ps. 1.9 million, an investment in infrastructure per concession of Ps. 502.7 million and a net debt as of March 31st, 2013 of Ps. 1,584 million. Total investment of the Company in Supervia Poetas is recognized in the Balance Sheet in the Investment in shares of associated company and joint ventures line.

With respect to the Toluca Airport, in 1Q13 the commercial passenger traffic reached 211,226 passengers, down 12.9% when compared to the 242,425 passengers reported in 1Q12. This decline was mainly due to lower demand at Toluca Airport which resulted from the segmentation of operations between Toluca and the Mexico City Airport (“AICM”) by airlines seeking to meet the demand generated by the exit of Mexicana de Aviacion at AICM. Nevertheless, as of February 25th Aeromexico resumed operations from Toluca with four national flights, and a fifth international flight will start shortly once governmental authorization is obtained.

CONSOLIDATED NET INCOME

As a result of the above, in 1Q13 the Company generated Consolidated Net Income of Ps. 1,848.1 million, representing an increase of 96.9% compared to Ps. 938.6 million reported in 1Q12.

NET DEBT

Cash equivalents and funds held in the Company’s trust as of March 31, 2013 totaled Ps. 1,974.5 million, while the Company’s total debt was Ps. 27,479.6 million, which was composed of the following: (i) bank loans for Ps. 25,276.5 million and (ii) notes payable – local notes for Ps. 1,788.4 million and (iii) other notes payable for Ps. 414.7 million. This debt was issued for the development of the following projects:

Pledge reduction – On February 27, 2013, OHL Mexico S.A.B. de C.V. announced that Obrascon Huarte Lain, S.A., owner of 100% of the capital stock of its controlling shareholder OHL Concesiones, S.A. (owner of 73.85% of the capital stock of OHL Mexico), had filed with Spain's Securities Market Commission (Comision Nacional del Mercado de Valores) the following announcement:

"Obrascon Huarte Lain, S.A. ("OHL" or "the Company"), pursuant to Article 82 of the Securities Market Law, announces the following to the National Commission of the Securities Market ("CNMV" for its acronym in Spanish):

SIGNIFICANT EVENT

In connection with our Recent Events no. 150087 published on September 15, 2011, and no. 178229 published on December 4, 2012, OHL informs that with regards to said financing, OHL has agreed with the creditor agencies to return the provided guarantee therein from 64% to the original 51% of the shares of its subsidiary OHL Mexico, S.A.B. de C.V."

Convertible Bond – On March 26, 2013, OHL Mexico, S.A.B. de C.V. announced that Obrascón Huarte Lain, S.A., owner of 100% of the capital stock of its controlling shareholder OHL Concesiones, S.A., had filed with Spain's Securities Market Commission (Comisión Nacional del Mercado de Valores) the following announcement:

"OBRASCÓN HUARTE LAÍN, S.A. ("OHL") in compliance with provisions of article 82 of the Spanish Securities Market Act, hereby notifies the Comisión Nacional del Mercado de Valores of the following:

SIGNIFICANT EVENT

I. That, the Board of Directors of OHL Investments, S.A. (the "Issuer"), a Luxembourg subsidiary wholly-owned by OHL indirectly through OHL Concesiones, S.A.U. (the "Guarantor"), at its meeting of 19 March 2013 unanimously approved the issue of bonds (the "Bonds") exchangeable into ordinary shares of OHL Mexico, S.A.B. de C.V. ("OHL Mexico"), registered with the National Securities Registry (Registro Nacional de Valores) maintained by the National Banking and Securities Commission (Comisión Nacional Bancaria y de Valores), and listed on the Mexican Stock Exchange, for an initial amount of €250,000,000 having a maturity of five (5) years (the "Issue").

In such a meeting, the Board established the primary features of the Issue. However, certain terms and conditions of the Bonds (the "Terms and Conditions") remained outstanding until such a time as the bookbuilding process had been carried out by the Joint Lead Managers (as defined below) foreseeably on the date hereof. The proceeds from the Issue are expected to be used to prepay existing financings of the Guarantor.

II. The Terms and Conditions are primarily as follows:

(a) The Bonds Issue is for an initial amount of €250,000,000 extendable up to €275,000,000 in case of exercise of an increase option and extendable up to €300,000,000 in case of exercise of an over allotment option to be granted to J.P. Morgan and UBS Investment Bank (the "Joint Lead Managers"). It is anticipated that the Issue provides the possibility for incomplete subscription and will have a maturity at five (5) years.

(b) The Issue will be lead by J.P. Morgan and UBS Investment Bank as Joint Lead Managers and will be offered to institutional qualified investors outside the US, Canada, Australia and Japan.

(c) The Bonds will be issued at par, with a nominal value for each Bond of one hundred thousand euro (€100,000). The Bonds will comprise a single series and will be represented by registered certificates, initially in the form of a Global Certificate, although it will subsequently be possible for them to be represented by Definitive Registered Bonds.

(d) The Bonds will accrue a fixed annual interest payable semi-annually, which will be finally determined by the Issuer once the bookbuilding process by the Joint Lead Managers has been completed. It is anticipated that the interest will be established between 3.25 and 4.00% per year.

(e) The Bonds' redemption price at maturity will be 100% of the par value.

(f) The Bonds will be voluntarily exchangeable for existing ordinary shares of OHL Mexico, representing up to approximately 7.5% of its share capital, at the discretion of the bondholders, in accordance with the Terms and Conditions, which will determine, among other things, the period, and the Exchange Price (as defined below).

According the Terms and Conditions, when the holders of the Bonds exercise their exchange right, the Issuer may opt either to deliver the corresponding number of shares in OHL Mexico, cash or a combination of cash and shares.

(g) The exchange price (the "Exchange Price") will be established by the Issuer on the basis of:

(i) The reference price of OHL Mexico's shares on the Mexican Stock Exchange, determined on the basis of the volume weighted average price for those shares according to trading volume on the markets during the period running between the opening for trading of the Mexican Stock Exchange and the closing of the Mexican Stock Exchange on the date hereof; and

(ii) An exchange premium, to be determined, which shall be between 25.0% and 30.0% of such reference price, determined as a result of the bookbuilding process conducted by the Joint Lead Managers.

The Exchange Price in euros will be determined following the exchange rate Euros/Mexican peso existing at the date the Exchange Price is determined.

(h) The Issue will have the personal guarantee of the Guarantor. In addition, the Issue will have the benefit of the following securities: (i) a Mexican law governed security trust ("fideicomiso") over the shares of OHL Mexico representing up to approximately 15% of its share capital; and (ii) a Luxembourg law governed pledge over the shares of the Issuer representing the 100% of its share capital

(i) The Terms and Conditions of the Bonds are subject to English Law and it is foreseen that the Bonds will be admitted to trading on the open market (Freiverkehr) of the Frankfurt Stock Exchange.

(j) Once the final Terms and Conditions shall be established, the Issuer and the Guarantor will sign with the Joint Lead Managers the subscription agreement for the Bonds (the "Subscription Agreement") subject to English law.

(k) The Bonds will be subscribed and paid for on the closing date, initially due to take place on 25 April 2013, provided that the conditions established in the Subscription Agreement have been met.

III. The Issuer and the Guarantor will agree to a lock-up ending 90 days after the date of the Subscription Agreement with respect to ordinary shares of OHL Mexico and Abertis Infraestructuras, S.A. and any securities convertible into or exercisable or exchangeable for any ordinary shares of OHL Mexico or Abertis Infraestructuras S.A., subject to certain exceptions.

In addition, OHL, S.A. will agree to a lock-up ending 90 days after the date of a lock-up deed expected to be executed by OHL, S.A. on or about the date hereof, with respect to the issue of any securities convertible into or exercisable or exchangeable for any ordinary shares of OHL Mexico, OHL, S.A. or Abertis Infraestructuras S.A.

Convertible Bond – On March 26, 2013, OHL Mexico S.A.B. de C.V. announced that Obrascón Huarte Lain, S.A., owner of 100% of the capital stock of its controlling shareholder OHL Concesiones, S.A., had filed with Spain's Securities Market Commission (Comisión Nacional del Mercado de Valores) the following announcement:

"OBRASCÓN HUARTE LAÍN, S.A. ("OHL") in compliance with provisions of article 82 of the Spanish Securities Market Act, hereby notifies the Comisión Nacional del Mercado de Valores of the following:

SIGNIFICANT EVENT

I. Following the Relevant Fact no. 184,407 published today in relation to the issue by OHL Investments, S.A. (the "Issuer"), a Luxembourg subsidiary wholly-owned by OHL indirectly through OHL Concesiones, S.A.U. (the "Guarantor"), of secured exchangeable bonds (the "Bonds") exchangeable for ordinary shares of OHL México, S.A.B. de C.V. ("OHL Mexico") (the "Issue") once the bookbuilding process has been completed by J.P. Morgan and UBS Investment Bank (the "Joint Lead Managers"), the Issuer has decided to determine the outstanding final terms of the Bonds.

Thus, the terms and conditions of the Bonds (the "Terms and Conditions") that have finally been established are as follows:

(a) *The Issue of the Bonds amounts to €275,000,000 to be increased to up to €300,000,000 in case of exercise of an over allotment option to be granted to the Joint Lead Managers. The Bonds have a maturity of five (5) years.*

(b) *The Bonds will accrue a fixed annual interest of 4.00%, payable half yearly in arrears.*

(c) *The Bonds are exchangeable, at the option of the bondholders, for existing shares of OHL Mexico, registered with the National Securities Registry (Registro Nacional de Valores) maintained by the National Banking and Securities Commission (Comisión Nacional Bancaria y de Valores), and listed on the Mexican Stock Exchange, representing approximately up to 6.8 % of its share capital.*

According to the Terms and Conditions, when the holders of the Bonds exercise their exchange right, the Issuer may opt either to deliver the corresponding number of shares of OHL Mexico, cash or a combination of cash and shares.

(d) *The initial exchange Price of the Bonds (the "Exchange Price") amounts to €2.7189 per each share of OHL Mexico. The Exchange Price in euro has been determined considering the exchange rate Euro/Mexican peso of today, i.e., one (1) Mexican peso equal to 0.063 euros.*

(e) *It is foreseen that the Bonds will be admitted to trading on the open market (Freiverkehr) of the Frankfurt Stock Exchange.*

II. The Issuer and the Guarantor are expected to sign today with the Joint Lead Managers a subscription agreement (the "Subscription Agreement") which is subject to English law. Nevertheless, the issuance and subscription of the Bonds will take place on the closing date, which is expected to occur on 25 April 2013 provided that all the conditions precedent set out in the Subscription Agreement are met.

III. The Issuer and the Guarantor will agree to a lock-up ending 90 days after the date of the Subscription Agreement with respect to ordinary shares of OHL Mexico and Abertis Infraestructuras, S.A. and any securities convertible into or exercisable or exchangeable for any ordinary shares of OHL Mexico or Abertis Infraestructuras S.A., subject to certain exceptions.

In addition, OHL, S.A. will agree to a lock-up ending 90 days after the date of a lock-up deed expected to be executed by OHL, S.A. on or about the date hereof, with respect to the issue of any securities convertible into or exercisable or exchangeable for any ordinary shares of OHL Mexico, OHL, S.A. or Abertis Infraestructuras S.A.

About the Company

OHL México is one of the largest operators in the private sector of concessions in transportation infrastructure in Mexico and is the leader of its sector in the Mexico City metropolitan area in terms of number of concessions assigned and kilometers managed. The Company's portfolio includes six toll road concessions, four of which are in operation, one on its final stage of construction and partially operating and one currently in a legal proceeding. These toll road concessions are strategically located and cover basic transportation needs in the urban areas with the highest vehicular traffic in Mexico City, the State of Mexico and the State of Puebla, which combined contributed with 31% of Mexico's GDP in 2011 and represented 27% of the population and 27% of the total number of registered vehicles (8.6 million) in Mexico. Furthermore, the Company has a 49% stake of the concession company of the Airport of Toluca, which is the second-largest airport serving the Mexico City metropolitan area. OHL Mexico initiated operations in 2003 and is directly controlled by OHL Concesiones of Spain, one of the largest companies in the transportation infrastructure segment in the world.
