Circuito Exterior Mexiquense (“CONMEX”)

In 2Q13, average equivalent daily traffic reached 269,249 vehicles, representing an increase of 3.5% when compared to 260,254 in 2Q12. In 6M13, average equivalent daily traffic was 267,333 vehicles, an increase of 4.6%, compared to 255,613 vehicles in 6M12.

The average toll per vehicle equivalent in 2Q13 increased 9.1% to Ps. 21.11, compared to Ps. 19.35 for the same period of the previous year. For the six month period 2013, the average toll per vehicle equivalent rose 9.6% to Ps. 21.04, compared to Ps. 19.20 reported in 6M12.

The Company is undertaken commercial measures in order to increase traffic, among the following:

- Road sign improvements
- Radio commercials
- Installation of boards along the roadway
- An information stand at Toluca Airport
- Publicity within the transportation industry
- Traffic alerts for CONMEX via Twitter, and
- Inclusion in the Mexico City traffic application, URBAN 360

Viaducto Bicentenario (“VIADUCTO”)

In 2Q13, the Average Daily Intensity (“IMD”) for this toll road rose 18.0% to 29,231 vehicles compared to 24,775 vehicles reported in 2Q12. On an accumulated basis, IMD increased 19.5%, from 24,210 vehicles in 6M12 to 28,937 vehicles registered in 6M13.

The average toll per vehicle in 2Q13 was Ps. 14.08, compared to Ps. 11.02 reported in 2Q12. For the first six months of 2013 the average toll per vehicle was Ps. 13.92, compared to Ps. 10.96 registered during 6M12.

The Company continued with the construction of the second section of the Lomas Verdes to Toreo tranche which runs from Avenida 1o de mayo to Toreo, with a length of approximately 900 meters.

Autopista Amozoc-Perote (“GANÁ”)

In 2Q13, average daily traffic reached 27,765 vehicle equivalents, decreasing 4.2% compared to the 28,988 vehicle equivalents registered in 2Q12, while for the first half period, average daily traffic grew 1.2%, from 27,903 vehicles in 6M12 to 28,235 vehicles in 6M13. The average toll per vehicle equivalent in 2Q13 was Ps. 40.27, 4.8% higher than Ps. 38.44 registered in 2Q12, while for the first six months of 2013 the average toll per vehicle equivalent was Ps. 40.41, an increase of 5.5% from Ps. 38.31 reported during the same period of the previous year.

Notably, this is an inter-urban concession and traffic grew 7% during 1Q13 as a result of Easter week taking place that period and not in the second quarter as in 2012; traffic was affected in 2Q13 since the performance of this concession is directly related to travelers using this road during vacation periods.

Autopista Urbana Norte (“AUNORTE”)

The Autopista Urbana Norte continued to show positive results month by month given that since January 2013 it is fully operational; therefore, average daily traffic reached 39,782 vehicles, which is not comparable to the 9,762 vehicles reported in 2Q12, derived from the partial openings that took place throughout 2012. During 2Q13 the ramp from Constituyentes to Reforma Centro was opened, thus concluding all the connections of this highway.

Supervia Poetas

During 2Q13, the left lanes of the Supervía from Las Torres to the Tunnel 5 exit in Luis Cabrera, and the left lanes of the upper level of Luis Cabrera along with its connection with the Autopista Urbana Sur from and to the south were opened. This toll road is now fully operational from Centenario to Periferico Sur which represents a length of approximately 7.2 km. Average daily traffic reached 19,348 vehicles in 2Q13 while the average toll per vehicle was Ps. 18.87.

FINANCIAL RESULTS

Starting on January 1, 2013 the Company adopted NIIF 11 – Joint ventures, which replaces IAS 31 – Participation in joint ventures, which deals with the recognition of agreements between joint venture participants, which are classified as joint operations and joint ventures. NIIF 11 establishes that investments in joint ventures should be recognized using the participation method, thereby eliminating the use of the proportional consolidation method, and requires an analysis of the rights and obligations of each of the agreements, as well as a decision as to whether a Joint Venture, or an Joint Operation exists. Joint operations are agreements in which the parties (“Joint Operators”) which have joint control together share the rights over the assets and obligations of the liabilities of the respective agreements. The Joint Operator accounts for the assets, liabilities, revenues and costs proportionally according to its participation in the joint operation. A joint venture is an agreement whereby the parties, who have joint control, have rights over the net assets of the agreement. The participant in a joint venture recognizes his portion in said venture as an investment using the participation method. For this reason, the Company has determined that the following legal entities are joint ventures that have been accounted for using proportional consolidation up until December 31, 2012 and that starting on January 1, 2013 were accounted for using the participation method: Controladora Via Rapida Poetas, S.A.P.I. de C.V. (or “POETAS”), Coordinadora Via Rapida Poniente, S.A.P.I. de C.V. (or “PONIENTE”), Prestadora de Servicios Via Rapida Poniente, S.A.P.I. de C.V. (“PSVRP”) and Operadora Via Rapida Poetas, S.A.P.I. de C.V. (“OVRP”). Previously reported financial information has been recalculated in line with NIIF for comparative purposes. See Investments in Associated Companies and Joint ventures section.

Toll Road Revenues

Toll Road Revenues for the quarter grew 24% from Ps. 622.5 million in 2Q12 to Ps. 772.0 million in 2Q13. CONMEX rose 12% and VIADUCTO 53%, while revenues in Amozoc-Perote remained flat in 2Q13. For the six months of 2013, toll road revenues grew 25% from Ps. 1,208.4 million in 6M12 to Ps. 1,507.0 million in 6M13. This increase reflects traffic growth at the concessions and tariff increases effective at the beginning of the year.

Construction Revenues

In accordance with Interpretation No. 12, "Service Concession Arrangements", issued by the International Financial Reporting Interpretations Committee, ("IFRIC") a concessionaire must to recognize construction revenues and costs related to infrastructure construction or improvements during their construction phase. Such construction revenues must be recognized as the construction work is completed using the percentage-of-completion method based on the proportion of costs incurred to the respective date. Among these costs are, besides those for the construction of the infrastructure, release of rights of way, financial expenses during the investment phase and others.

Construction revenues from the infrastructure of the concessionaires is determined without taking into account net margin over costs except for the margins generated by construction works realized for the concessionaires by construction company subsidiaries of OHL Mexico.

Due to the completion of construction at Autopista Urbana Norte, construction revenues decreased by Ps. 2,307.6 million, from Ps. 2,734.1 million in 2Q12 to Ps. 426.5 million in 2Q13, of which Ps. 286.2 million correspond to Autopista Urbana Norte, representing 67% of the investment over said period.

Other Operating Revenues

The concession contracts for CONMEX and Viaducto Bicentenario include clauses which guarantee that these concessionaires have a right to recuperate, within the contract period, the capital invested plus a guaranteed real internal rate of return net of taxes (10% in the case of CONMEX and 7% in the case of Viaducto Bicentenario). These contracts also establish that in the event that the concession expires without having fully recuperated the capital invested plus the accumulated guaranteed rate of return, the awarding government entity may extend the concession title or pay the unrecovered amount.

In the case of the concession contracts for Autopista Urbana Norte, these include clauses which guarantee that the concession should recover, within the contract term, the total amount invested in the project plus a real annual rate of return of 10% of the total amount invested after taxes.

Based on the above, at the point when the concession starts operating, the concessionaires account for net income for each period using the amount calculated by applying the aforementioned clauses of guaranteed return. As such, the concessionaires register as Other Operating Income (and as EBITDA from Other Operating Revenues) the difference between the net income calculated on the basis of the guaranteed return clauses and the net income obtained from the operations. The figure for Other Operating Revenue is also recognized in the Balance Sheet as a corresponding Intangible Asset taking into account the corresponding tax effects. Summarized financial statements for the concessionaires have been added at the end of this report which provides the accounting of Other Operating Revenues.

In 2Q13, other operating revenues reached Ps. 1,679.8 million, representing an increase of 9% over the Ps. 1,534.4 million registered in 2Q12. This increase is primarily due to different phases of the Autopista Urbana Norte beginning operations during 2012, which registered Ps. 397.5 million in other operating revenues during 2Q13.

Total Operating Costs and Expenses	971,042	3,211,410	-70%	2,172,393	4,996,581	-57%

Total operating costs and expenses decreased 70% in 2Q13 going from Ps. 3,211.4 to Ps. 971.0 million due primarily to the decrease in the construction cost line (as was explained in the construction revenues section) which decreased from Ps. 2,670.5 million in 2Q12 to Ps. 411.0 million in 2Q13.

SG&A for 2Q13 includes Ps. 30.7 million corresponding to studies related to the evaluation of new projects compared to Ps. 40.9 million registered during 2Q12; in 6M13, this figure totaled Ps. 53.5 million compared to Ps. 50.7 million in 6M12. Additionally, 2Q13 also includes Ps. 12.7 million in costs related to the provision of technical services, consulting and other services with its controlling shareholder; for the first half of 2013 these expenses reached Ps. 25.4 million.

Interest Expenses

In 2Q13 interest expenses reached Ps. 838.1 million, 31% above the Ps. 639.6 million registered in 2Q12. For 6M13, this figure increased 27% to Ps. 1,642.1 million. These increases were mainly due the start of operations during 2012 of phases of AUNORTE given that prior to initiating their operations, the financial expenses corresponding to the debt utilized for their construction were capitalized within the concession investment; once they began operating, these expenses were moved to net income for the year. Because of this, the increase in the interest expense line item for OHL Mexico and others, is explained by the debt borrowed from Compañía Española de Financiación de Desarrollo, COFIDES, S.A. (“COFIDES”) in March of 2012 which generated an interest expense of Ps. 14.1 million in addition to the Ps. 14.0 million in 2Q13 from the debt borrowed from Latina Mexico, S.A. de C.V. (or “LATINA”) with the related company Constructora de Proyectos Viales de Mexico, S.A. de C.V. (or “CPVM”), while for the first six months of 2013, interest expenses related to the debt borrowed from COFIDES totaled Ps. 27.3 million in addition to the Ps. 28.7 million related to the debt with LATINA.

Interest Income

Interest income reached Ps. 19.7 million in 2Q13 compared to Ps. 34.9 million reported in 2Q12 as a result of lower cash levels, while in 6M13 interest income reached Ps. 37.0 million compared to Ps. 79.0 registered for 6M12.

INVESTMENTS IN ASSOCIATED COMPANIES AND JOINT VENTURES

This line item corresponds to the Company’s 49% stake in the Toluca Airport concession and, as of January 1, 2013, to the 50% stake of POETAS, PONIENTE, PSVRP and OVRP. The share in the revenues from associated companies and joint ventures in 2Q13 was Ps. 61.6 million compared to Ps. 28.2 million registered in 2Q12, of which during 2Q13, Ps. 66.1 million corresponded to operations related to the Supervia Poetas as a result of the adoption of the NIIF 11 beginning on January 1, 2013. The share in the revenues from associated companies and joint ventures in 6M13 was Ps. 434.9 million compared to Ps. 51.1 million registered in 6M12 of which during 6M13, Ps. 442.5 million corresponded to operations related to the Supervia Poetas.

As a result of the adoption of this international reporting standard, beginning in 2Q13, the Company is no longer registering toll road revenues of Ps. 16.5 million (Ps. 23.5 million in 6M13), construction revenues of Ps. 312.9 million (Ps. 761.3 million in 6M13), other operating revenues of Ps. 119.0 million (Ps. 721.4 million in 6M13), toll road EBITDA of Ps. 3.5 million (Ps. 5.4 million in 6M13), an investment in infrastructure per concession of Ps. 310.9 million (Ps. 813.6 million in 6M13) and a net debt as of June 30, 2013 of Ps. 1,888 million. Total investment of the Company in Supervia Poetas is recognized in the Balance Sheet in the Investments in Associated Companies and Joint Ventures line.

Investments in Associated Companies correspond to the Company's 50% stake in POETAS, PONIENTE, PSVRP and OVRP, reached Ps. 1,532.2 million.

With respect to the Toluca Airport, in 2Q13 commercial passenger traffic reached 273,755 passengers, an increase of 37.1% when compared to the 199,640 passengers reported in 2Q12. As mentioned in 1Q13, Aeromexico resumed operations from Toluca Airport, while Vivaerobus started operations in April. Likewise, Aeromar initiated operations in May with two daily flights to Veracruz, and Interjet launched the opening of high-impact destinations with a flight to Tijuana in June. As a result of the above, Toluca went from having 2 domestic airlines (Interjet and Volaris) with 9 destinations in 2012, to five commercial airlines (Aeroméxico, Vivaerobus and Aeromar, in addition to the first two) in 6M13, increasing its offering to 13 destinations.

About the Company

OHL México is one of the largest operators in the private sector of concessions in transportation infrastructure in Mexico and is the leader of its sector in the Mexico City metropolitan area in terms of number of concessions assigned and kilometers managed. The Company's portfolio includes six toll road concessions, four of which are in operation, one on its final stage of construction and partially operating and one currently in a legal proceeding. These toll road concessions are strategically located and cover basic transportation needs in the urban areas with the highest vehicular traffic in Mexico City, the State of Mexico and the State of Puebla, which combined contributed with 31% of Mexico's GDP in 2011 and represented 27% of the population and 27% of the total number of registered vehicles (8.6 million) in Mexico. Furthermore, the Company has a 49% stake of the concession company of the Airport of Toluca, which is the second-largest airport serving the Mexico City metropolitan area. OHL Mexico initiated operations in 2003 and is directly controlled by OHL Concesiones of Spain, one of the largest companies in the transportation infrastructure segment in the world.
